

COMPLETE HOME SECURITY SYSTEM

They can't get in. You're always covered.

A complete First Alert security system — intrusion sensors, HD video, glass-break detection and shatter-resistant window film — all backed by 24/7 professional monitoring.

24/7

PRO
MONITORING

ALL-INCLUSIVE MONTHLY PRICE

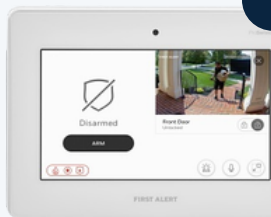

\$19.99 /mo

+ HST • 24/7 monitoring included for the first year

- ✓ First Year Free Monitoring
- ✓ **\$0 upfront** for equipment
- ✓ Pro install & setup included
- ✓ 10 Year Parts & Labour Warranty

Fourteen pieces of protection, working as one.

Every component is professional-grade First Alert and Armorcoat hardware — installed, configured and monitored for you. Nothing to buy upfront.

×1

First Alert PRO 7 Panel

7" All-in-One Touchscreen

The command centre — arm, disarm and watch live video from one smart hub.

×5

SiX Door/Window Sensors

Encrypted wireless

Instant alert the moment a protected door or window is opened.

×1

SiX Glassbreak Detector

Acoustic sensing

Hears the exact frequency of breaking glass and triggers instantly.

×1

SiX Wireless Motion Detector

Pet-friendly PIR

Covers open living areas and catches movement an intruder can't avoid.

×1

VX1 HD Video Doorbell

CAMW-WDB · See & speak

See and talk to whoever's at the door, live, from your phone — anywhere.

×4 + ×1

Armorcoat Security Film

10-mil · 4 windows + 1 door

Holds shattered glass in place — turns a smash-and-grab into a dead end.

PROFESSIONAL EQUIPMENT VALUE

**\$5,400+ in Equipment — \$0
upfront**

Included with your \$19.99/mo plan, professionally installed.

FOUR LAYERS. ONE UNBREAKABLE SYSTEM.

Most systems stop at an alarm. This one stops the break-in.

1

Detect — doors & windows

Five entry sensors plus a motion detector cover the ways in. The instant something opens, the system knows.

6 sensors

2

See & speak — before you open the door

The HD video doorbell lets you see and talk to anyone at your door from your phone — home or away.

Live HD
video

3

The moment glass is compromised, you'll know.

The glassbreak detector recognizes the sound and vibrations of forced entry and triggers the alarm.

Acoustic
trigger

4

Stop the smash-and-grab (exclusive)

Armorcoat 10-mil security film bonds your glass together, so it cracks but holds. Intruders are left fighting a window that won't give way — buying time for monitoring to respond.

Physical
barrier

24/7

And every layer is watched, around the clock.

When an alarm trips, a professional monitoring station responds and dispatches help — day or night, included in your \$19.99/month plan.

HOW IT COMPARES

More protection. Less every month.

	 LG Home Comfort Heating, Cooling & Water	Telus	Rogers	Canada First
